Reliability of a CDE

CPET Primer & Prehabilitation Symposium: in conjunction with POETTS (UK)

This workshop will focus on using cardiopulmonary exercise testing (CPET) for preoperative risk stratification and prehabilitation (optimization of modifiable risk factors) of the surgical patient. It could serve as a 'primer' for anyone intending to attend a more formal CPET workshop in Malibu one or the 19C.

Prehabilitation involves proactive patient management prior to surgery with exercise programs, smoking cessation, correction of anaemia and nutritional interventions to help cope with the stress of surgery, within the context of delivering on the value proposition of Perioperative Medicine.

80-87th November, 2019

NEW BOTTLE COST EXPOSURE

Wednesday, November 6th, 2019
EDWARDS STATION SYMPOSIUM

Thursday, November 7th, 2019

Wednesday, November 6th, 2013

This opportunity will be held in collaboration with Testing and Training Society (TETS), UK - IE and will provide clinicians with basic knowledge

and the problem of learning arbitrary functions based on the training for generalization, where needed. It could serve as a hint for the future.

experienced clinicians to refresh their knowledge.

Day 2: PREHABILITATION SYMPOSIUM

Thursday, November 7th, 2019 (am)

hematologic, and nutritional optimization etc.) aimed at optimizing the physiological and psychological reserves of patients presenting for surgery prior to the stress of major surgery in order to achieve better postoperative outcomes.

The faculty representing all twelve international medical and engineering universities in the field will provide an up-to-date overview of prosthodontics as it relates to major surgery. You will acquire the skills and knowledge to take back to your hospital to set up a "probe service" for your own patients.

The Aim of the ANZSRS Mentoring Program is:

1. To enhance the professional abilities of the Mentee
2. To aid the Mentee's career development
3. To enable the Mentee to network and learn from an interested professional
4. To provide professional support to Mentees working in isolation
5. To invest in the future of the profession and society

The benefits of a Mentoring program include:

- Promoting confidence and increasing potential
- Support and encouragement in the development of specialist skills
- Promotion and career development within the profession
- Development of leadership skills in junior and senior members

If you wish to become a Mentor, be mentored or become an advisor, then please contact the Program Facilitators for more information. Margaret McElrea (margaret.mcelrea@health.qld.gov.au)

GRANTS

1. ASM grant
 - The ANZSRS has established a scheme to assist members to attend and preferably present work at the Society's Annual Scientific Meeting
 - Due end of October 2019 for ASM 2020
2. Asencia Education
 - The ANZSRS Asencia Education grant is offered to encourage and support those working in the field of respiratory science who seek higher qualifications relevant to their work.
 - Due Friday of the last full week of November
3. Jeff Preto Memorial Research
 - The ANZSRS Jeff Preto Memorial Research Grant is offered to encourage and support research in clinical and/or laboratory-based respiratory science by Society members.
 - Due end of November 2019
